BRED BUCK

SPRING FEMALE SALE

WELCOME TO THE 2022 BRED TO BUCK COW SALE

This sale is our longest running annual sale and has always been a highlight of our year. With over 40 years of breeding bucking bulls, our focus remains the same, to make the next generation better than the last. We learned early on that cow families are what consistently produce the great ones, so we have strived to identify the elite females. You will notice throughout this catalog the impact of the great cow families and how they work for us.

This offering will feature females from the heart of our program and this sale has a proven track record for offering females that produce and generate large returns. We talk a lot about the cows, but the calves are perhaps the key ingredient of your purchase. We have sold several great bulls and proven donors at the side of their dam in this sale.

We try to practice what we preach that the next generation is better, and you will find many of the calves are sired by young bulls which we believe have the pedigree and performance to advance to the next level. You can buy with confidence. We always hate to see these great females go; however, we look forward to watching them work for you.

Fortunately, our business has grown over the years, and it requires a lot of great help to make everything happen. We are blessed with great employees, family, and friends that make our program successful. We appreciate every one of you more than we can ever tell you.

Study this catalog, the depth of the pedigrees, and feel free to contact us with any questions. We look forward to seeing you on sale day!

Thank You,
D&H Cattle
